Asset Management

10

Register and categorize all fixed assets (machinery, equipment, furniture, etc.)

Track asset locations, conditions, and ownership details

Full lifecycle visibility: from purchase to disposal

Monitor asset depreciation and maintenance schedules

Inventory Management

11

Maintain real-time stock levels across locations

Categorize inventory with clear item definitions

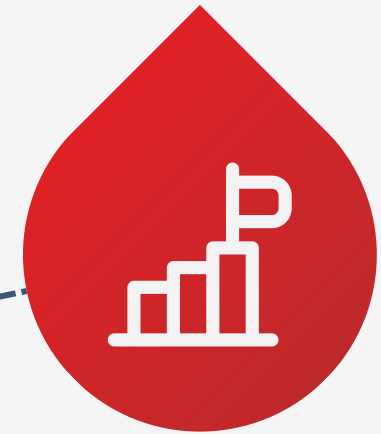

Streamline processes for stock issuance, returns, and transfers

Record all stock movements with supporting documents (e.g., Inward/Outward Gate Pass, GRN)

Avoid overstocking, shortages, and manual errors

Ensure accountability and transparency across departments

Employee Management

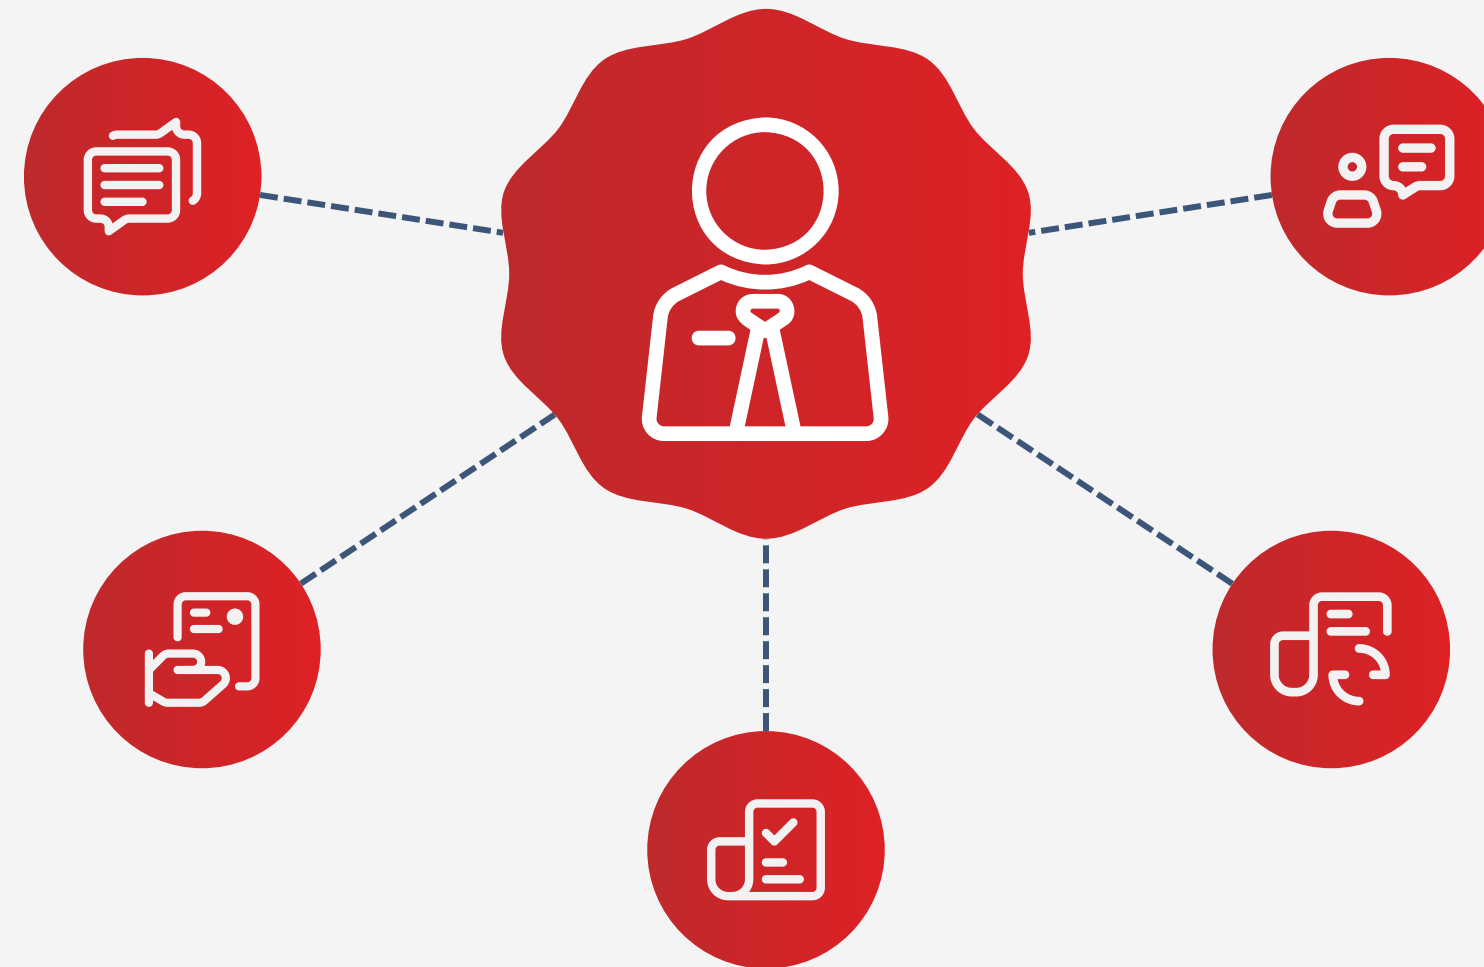

12

**Maintain employee
records & shifts**

**Track individual and
team performance**

**Track workforce
actions &
evaluations**

**Enable data-driven
evaluations and
growth discussions**

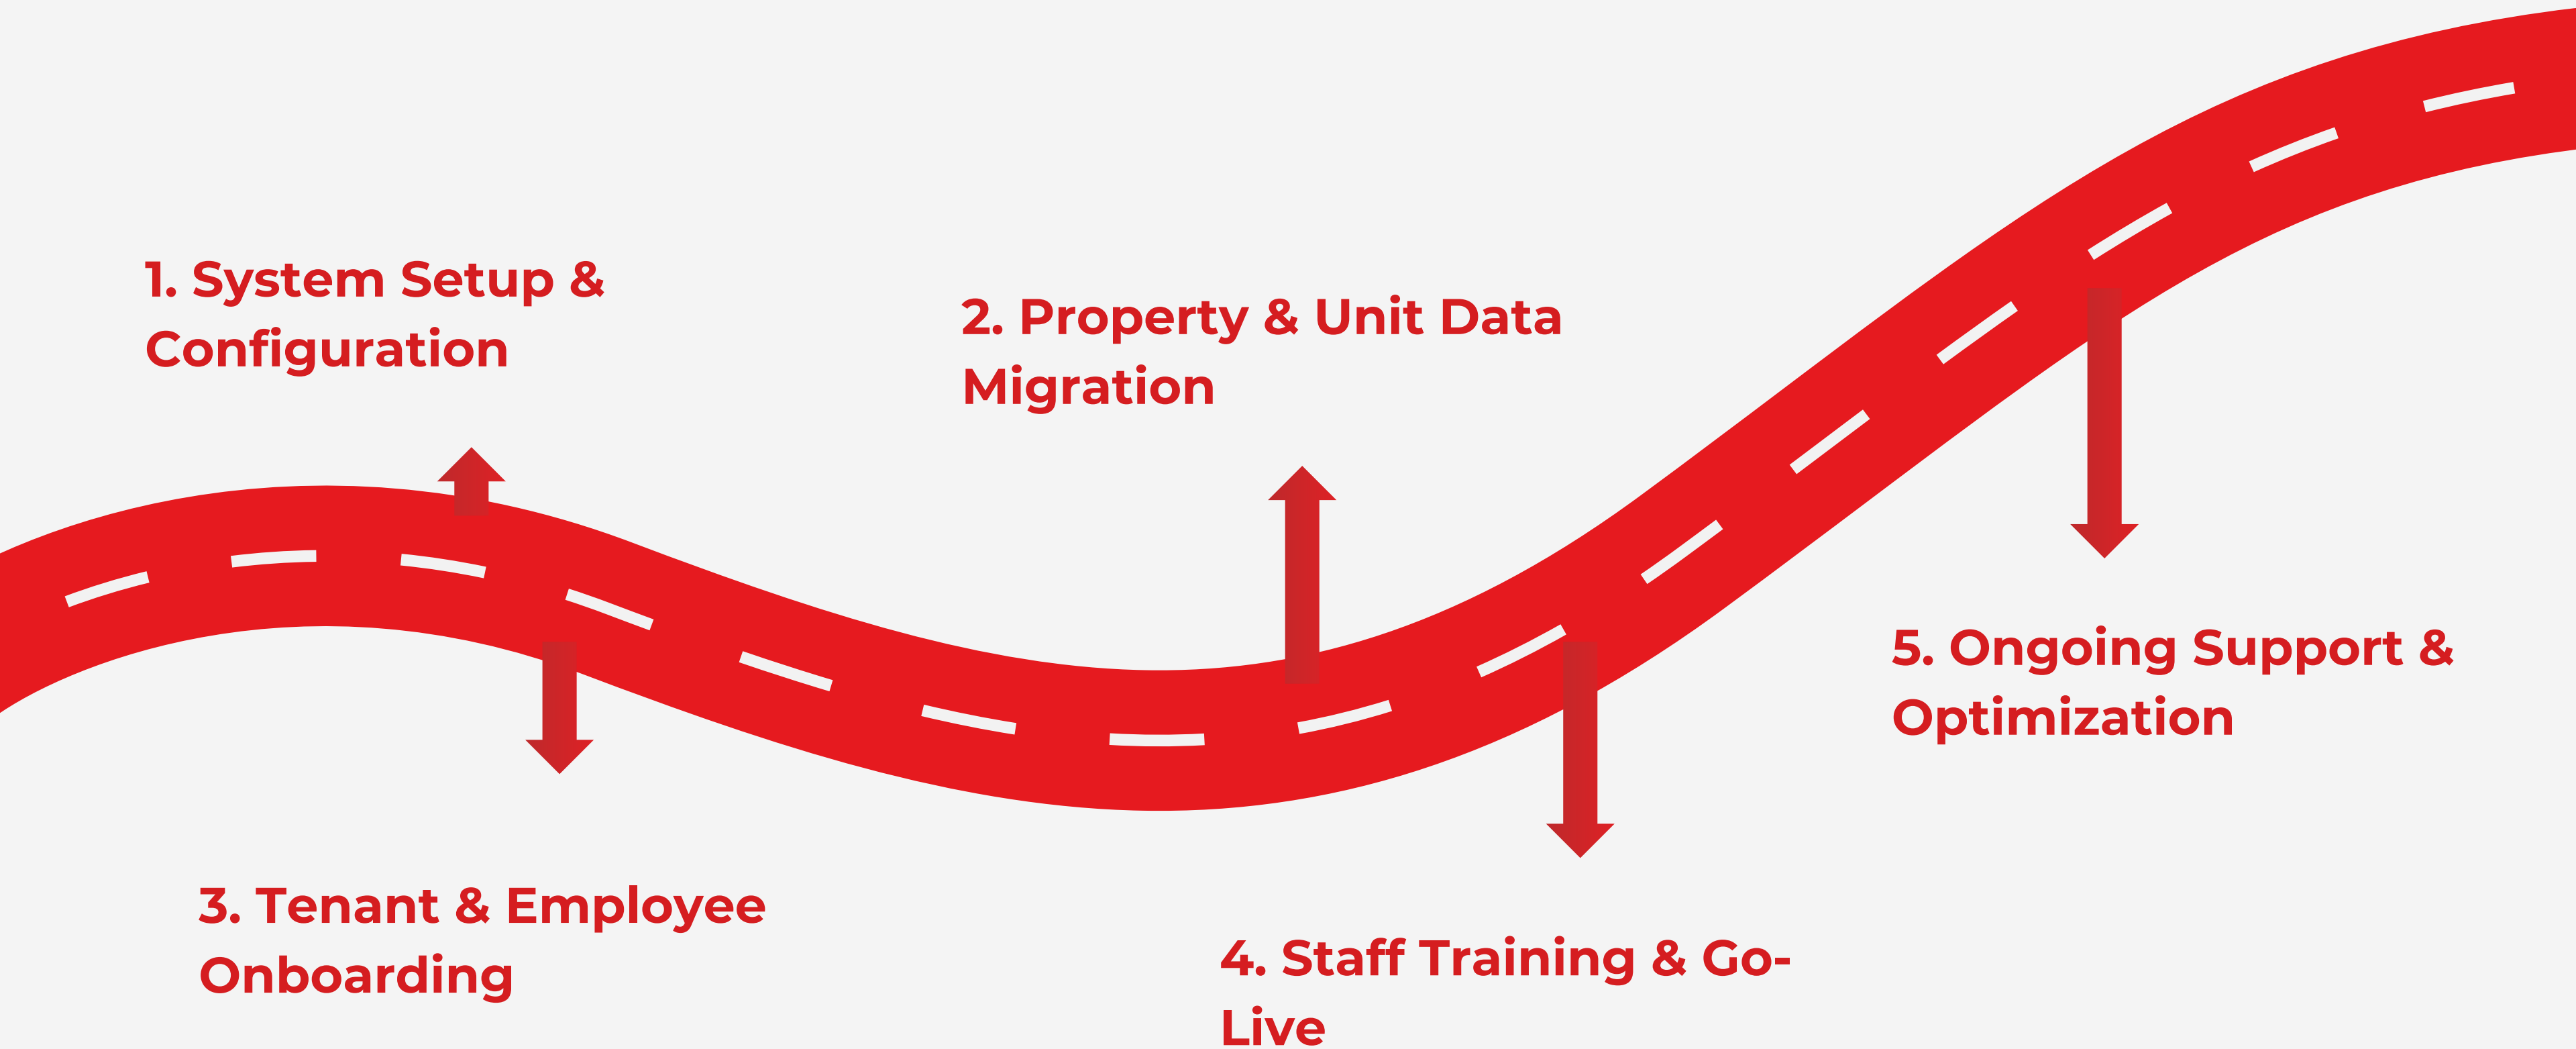

**KPI-based performance
monitoring**
